## **The 3208 Caterpillar Marine Engine - History and Design ...**

The original caterpillar 3208 diesel engine was a 225hp, 636 cubic-inch capacity V8 design. It did not have cylinder liners, but many engineering companies would re-bore the blocks and fit oversize pistons and rings rather than throw the engines away.

## **Spec Sheets - Cat 3208 Propulsion | Horsepower | Motor Oil**

The 3208 engine utilizes a forged steel crankshaft with true ground radii - they are not rolled. Pick this crankshaft up once and you will know why they are not. There was no scrimping on metal on this Caterpillar crank. You can have an 8- or 10-bolt flywheel flange (Figure 5) and they both have the same bolt pattern. If you use an 8-bolt flywheel on a 10-bolt crankshaft be sure to install two plugs with sealer into the unoccupied holes or you will leak oil badly.
