And, contrary to popular belief, the AT Vanagon will actually outperform a 4-speed Vanagon on highway grades, with the stock 80 hp 1.9 liter, or stock 90 hp 2.1 liter engine. This phenomenon is due to the fact the Automatic is geared lower overall, and has a torque converter instead of a clutch system.

All versions of the Vanagon were powered by a 2.1-liter water-cooled four-cylinder engine that generated 90 horsepower and included the Digifant fuel-injection system. A four-speed manual transmission was standard, while a five-speed manual was standard on trim packages that included VW's Synchro all-wheel-drive system.
