The engineering drawings prepared by GSFC design personnel or contractors on GSFC drawing format using GSFC drawing numbers shall be known as "Government Design Activity Drawings." Parts made to these drawings typically would be manufactured through the Fabrication Engineering Branch, Engineering Services Division, GSFC.

ENGINEERING DRAWING STANDARDS MANUAL

An engineering drawing is a type of technical drawing that is used to convey information about an object. A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing. Usually, a number of drawings are necessary to completely specify even a simple component. The drawings are linked together by a master drawing or assembly drawing which gives the drawing numbers of the subsequent detailed components, quantities required, construction materia
