in Aviation Mathematics. A cube is a solid with six square sides. [Figure 1-25] A cube is just a special type of rectangular solid. It has the same formula for volume as does the rectangular solid which is  $\text{Volume} = \text{Length} \times \text{Width} \times \text{Height} = L \times W \times H$ . Because all of the sides of a cube are equal, the volume formula for a cube can also be ...
