Download the user manual The ARRISUN 5 HMI 575W PAR from ARRI is a workhorse on location. Whenever punch- or bounce-light is required on a set, an ARRISUN is the answer. In developing the light, the interaction of lamp, reflector and converter lens was taken into consideration and computer simulated, resulting in unmatched light performance.

ArriSun 5 575 HMI Par Kit | Hand Held Films

By default the Arri False Color scale is used which is a great place to start. You will also have the Spectrum False color, which is a gradient of color from Pink-Blue-Green-Yellow-Red. This is easily seen on the Guide bar. You can also create your own custom set, up to 3. The chart below describes what each color means for ARRI- essentially when an element in your scene gets colorized, that ...
