Chem4Kids.com! This tutorial introduces basics of matter. Other sections include elements, the periodic table, reactions, and biochemistry.

### **Chem4Kids.com: Matter: Definition and Overview**

States of Matter We look at five states of matter on the site. Solids, liquids, gases, plasmas, and Bose-Einstein condensates (BEC) are different states of matter that have different physical properties. Solids are often hard, liquids fill containers, and gases surround us in the air. Each of these states is also known as a phase.

Mixture Basics Mixtures are absolutely everywhere you look. Most things in nature are mixtures. Look at rocks, the ocean, or even the atmosphere. They are all mixtures, and mixtures are about physical properties, not chemical ones. That statement means the individual molecules enjoy being near each other, but their fundamental chemical structure does not change when they enter the mixture.

Chem4Kids.com! This tutorial introduces basics of evaporation. Other sections include elements, the periodic table, reactions, and biochemistry.

### **Chem4Kids.com: Matter: Evaporation**

Liquid Basics Liquids are the second state of matter we will talk about. Solids are objects you can hold and maintain their shape. Gases are floating around you or trapped in bubbles. Liquids are found between the solid and gas states. Examples of liquids at room temperature include water (H<sub>2</sub>O), blood, and even honey. If you have different types of molecules dissolved in a liquid, it is ...

Chemistry Index and Teaching Outline. UNDER CONSTRUCTION. The teaching outline here is based on I chose these outlines (even though they are far more detailed than the average K-8 life science course is) because I'd rather err on the side of too much than too little available (especially for gifted kids!).
