CHM 1025, a two-credit course, is offered for students who wish to strengthen their understanding of basic concepts of atomic structure and stoichiometry before beginning the general chemistry sequence (CHM 2045/2045L, CHM 2046/2046L). A chemistry placement exam is offered online on ONE.UF.

UF Undergrad Catalog

Hi, I was wondering whether it is better to take CHM 2045 or CHM 1025. I took Chemistry Honors in 10th grade, but don't really remember much from it. I wasn't sure how much knowledge you needed of chemistry to go into CHM 2045. I'll be fine with the math in the class I just don't really know many chemistry concepts.

If you are not eligible to register for CHM 2045 or CHM 2095 (or you chose to take CHM 1025 as a refresher), you must complete the prerequisite courses satisfactorily. Once you begin CHM1025, you must complete it with a C or higher in order to be eligible for CHM2045/CHM2095, no matter your ALEKS placement scores.

Home - UF Chemistry

You are not wasting your money. I took 1025, got an A, thought I would be fine in 2045... I barely got a B in 2045... Unless you are a chemistry GENIUS, take 1025. Unless you want to fail/barely pass 2045. I basically had to give up all my time this past semester.. and this was at a CC. My CC prof used to teach at UF.
