Controller Involvement In Management by Vijay Sathe

The results show that most of the controllers are at least somewhat involved in management decision processes, and some are highly involved. A complex set of factors determine the extent and breadth of controller involvement. Controller involvement in either strategic decisions, operating decisions, or both types of decisions is positively related to some situational variables, including capital intensity, operating interdependency, line managers' financial competence, formalization of ...

Abstract. In recent years there has been much debate on the new business-oriented role of management accountants, also called controllers. The purpose of this paper is to investigate to what extent the involvement of the business unit (BU) controller in the decision-making process of business units is impacted not only by organizational factors, but also by the personal characteristics of BU controllers.

Controller involvement in management (Book, 1982 ...

This is the critical control function of management. And since management involves directing the activities of others, a major part of the control function is making sure other people do what should be done. The management literature is filled with advice on how to achieve better control.

The Control Function of Management

The controller has traditionally been the officer in charge of reporting, which is to say that he or she is held to be a neutral and (relatively) independent outsider who updates and reports on the state of affairs and monitors the quality of the information systems and accounting organization (AO/IC).
