### **Creative Thinkering: Putting Your Imagination to Work ...**

Excerpted from “ Creative Thinkering: Putting Your Imagination to Work ” by Michael Michalko, New World Library, 2011. The human brain cannot deliberately concentrate on two separate objects or ideas, no matter how dissimilar, no matter how remote, without eventually forming a connection between them. According to his own story, Isaac Newton conceived of universal gravitation when he observed an apple falling and, at the same time, noticed the moon in the sky.
