Overhaul Kit Lookup by CPL - Cummins QuickServe Online

On Cummins engines such as the 3.9, 5.9, and 4.5 the engine ID tag will be on the side of the timing gear case near the injection pump. The CPL and serial numbers will be in these location on the tag. Other engines such as the QSB3.3 and similar engines the ID tag will be on the block toward the rear. The serial number will be located here. The CPL field on these engines can be left blank like on this tag.

Grindstaff Engines Cummins CPL Number

The dataplate is located on the fuel pump side of the engine, on the rocker housing. It includes the following information: Engine Serial Number (ESN) Critical Parts List (CPL) Model; Horsepower and RPM rating; Emission statement (if applicable) Find the dataplate on ISX Engines. The dataplate is located on top of the rocker lever cover. It includes the following information: Engine Serial Number (ESN)

Cummins Engine Serial Number Lookup | Diesel Parts Direct

Cummins Engine Serial Number Format. Cummins engine serial numbers look more like a classic serial number than Caterpillar ESNs do. Cummins ESNs are eight digits long and are composed only of numbers. They go in a numerical sequence, based on which engine came first off the assembly line. There is no special designation for particular models. Cummins engines do have something a little unique, called a CPL. CPL stands for Critical Parts List and is a list of the critical parts of the engine.

Genuine Parts | Locator | Cummins Inc.

Cummins engines do have something a little unique, called a CPL. CPL stands for Critical Parts List and is a list of the critical parts of the engine. There are fewer CPLs than ESNs because multiple engines can have the same CPLs. For most major parts of an engine, giving us a CPL will work just as well as giving us an ESN.
