### **Engine Overhaul - Maritime Engineering**

Hydro's current maintenance philosophy is to complete an engine overhaul on all diesel engines every 20,000 hrs. This philosophy was established as a result of a review of the maintenance tactics and failure history in 2003. Performing overhauls too frequently results in additional expenditure for negligible improvement in reliability.

## **OVERHAUL DIESEL ENGINES**

One of the most economical ways to deal with and aging diesel engine is perform an overhaul. This is better than replacing the engine with a new one, as you are keeping the original equipment or OEM of the vessel. This can be important as there will be no need to re-ballast the vessel to accommodate a differently weighted engine.
