Enlightenment Now: The Case for Reason, Science, Humanism, and Progress is remarkable, heart-warming, and long overdue." — Christian Science Monitor "Pinker is a paragon of exactly the kind of intellectual honesty and courage we need to restore conversation and community, and the students are right to revere him." —The Seattle Times

Enlightenment Now: The Case for Reason, Science, Humanism ...

Enlightenment Now: The Case for Reason, Science, Humanism, and Progress. If you think the world is coming to an end, think again: people are living longer, healthier, freer, and happier lives, and while our problems are formidable, the solutions lie in the Enlightenment ideal of using reason and science.

Enlightenment Now: The Case for Reason, Science, Humanism ...

This progress is not the result of some cosmic force. It is a gift of the Enlightenment: the conviction that reason and science can enhance human flourishing. Far from being a naïve hope, the Enlightenment, we now know, has worked. But more than ever, it needs a vigorous defense.

ENLIGHTENMENT NOW: THE CASE FOR REASON, SCIENCE, HUMANISM ...

The result is a corrosive fatalism and a willingness to wreck the precious institutions of liberal democracy and global cooperation. With intellectual depth and literary flair, Enlightenment Now makes the case for reason, science, and humanism: the ideals we need to confront our problems and continue our progress. click to read more

Enlightenment Now: The Case for Reason, Science, Humanism ...

Enlightenment Now: The Case for Reason, Science, Humanism, and Progress, is a highly inspiring read that brings a strong dose of reality to the truly fake news of negativity and cynical hand wringing all around us. We live in the best times in the history of the world.

Enlightenment Now: The Case for Reason, Science, Humanism ...

Enlightenment Now: The Case for Reason, Science, Humanism, and Progress is a 2018 book written by Canadian-American cognitive scientist Steven Pinker. It argues that the Enlightenment values of reason, science, and humanism have brought progress; shows our progress with data that health, prosperity, safety, peace, and happiness have tended to rise worldwide; and explains the cognitive science of why this progress should be appreciated. It is a follow-up to Pinker's 2011 book, The Better Angels o
