Essential bolt torques are: main bearing cap bolts connecting rod cap bolts cylinder head bolts close

IH Maxxforce engines engine manuals and specs

The DT408 is a "destroked" DT466 while the DT530 is an over-bored DT466. So, the DT408 and DT530 each share a major common part with the DT466, one the cylinder pack (408) and the other the crank (530). The 408 was used mostly in school busses as a (vain) attempt to replace the venerable DT/DTA360, which ultimately it could not accomplish.
