curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

Gaston Planté invented the lead-acid battery by combining a lead/lead sulfate and lead dioxide/lead sulfate electrodes. He demonstrated it before the French Academy of Sciences in 1860. The battery had low capacity because the
