increased substantially over the past few decades. However, due to a lack of integrative theory, we believe limited advancement has been made regarding the full process of leadership emergence. To address this concern, first, we conceptualize the leadership emergence process from a complexity perspective and define emergence as a dynamic,

empathy, or teamwork unless we are aware of our own feelings and how they influence our thoughts and behaviors.

## **Effective Leadership Starts with Self-Awareness**

Recap: The Path of Self Leadership. Self-leadership is the process of observing and managing one's thoughts, emotions, actions, and behaviors.

## Read Online Leadership

Self-leadership grows as we develop into mature adulthood. This process is rarer than we might think. Developing self-leadership takes effort. We must grow our emotional intelligence.

### **Self Leadership: How to Develop the Skills ... - Scott Jeffrey**

Behavioral theories of leadership are based upon the belief that

great leaders are made, not born.

Consider it the flip-side of the Great Man theories. Rooted in

behaviorism, this leadership theory focuses on the actions of leaders, not on mental qualities or internal states.

According to this theory, people can learn to become leaders through teaching and observation.
