"Learning by Doing is not only the title of an incredibly powerful book, it is also the description of our districts journey over the last five years. Without a doubt, the establishment of PLCs as a district and the deepening of our collaborative culture have had the single greatest impact on student achievement of any of the initiatives we have implemented.

Amazon.com: Customer reviews: Learning By Doing: A ...

Learning by doing refers to a theory of education expounded by American philosopher John Dewey. It's a hands-on approach to learning, meaning students must interact with their environment in order to adapt and learn. Dewey implemented this idea by setting up the University of Chicago Laboratory School. His views have been important in establishing practices of progressive education.
