DIY Fairy Garden Is the Perfect Gardening Project for Kids

To help you determine which food plants and flowers to grow with your children, here are ten options that are good choices for getting kids interested in backyard gardening. 1. Radishes: While it may be true that some children are not excited when they see radishes on their plates, this is a great place to start.

10 Plants to Grow with Kids (Kids Gardening Guide ...

These are a few of the words that come to mind when I think about how we use gardens to teach and grow love in kids. I've written before about the importance of allowing children time outside to develop empathy for and a connection to nature. Watching and caring for a delicate plant as it grows from seed to harvest instills in kids a sense of empathy and compassion, of the interconnectedness of nature and their responsibility (as a part of it) to care of it.
