Integrating Existing Users into Liferay Liferay provides a number of user authentication options. You can configure Liferay to connect to LDAP or NTLM servers so users from those environments can log in to your Liferay server. You can also configure Liferay to allow users to log in via Facebook or OpenId accounts.

Integrating Existing Users into Liferay - Liferay Help Center

As we discussed earlier, Liferay Portal pages are composed of portlets. All of your site's functionality, from blogs to shopping, is composed of portlets. Even static web content can be displayed through Web Content Display portlets. To add a portlet to a page, just click the Add button from the left palette and select the Applications tab. You can either browse through the categories of available portlets until you find the one you're looking for or you can search for portlets by name.
