Multi-Step Equations Practice Problems with Answers Read More »

Multi-Step Equations Practice Problems with Answers ...

Solving Multi-Step Equations. The word "multi" means more than two, or many. That's why solving multi-step equations are more involved than one-step and two-step equations because they require more steps. The main goal in solving multi-step equations, just like in one-step and two-step equations, is to isolate the unknown variable on one side of the equation while keeping the constant or number on the opposite side.
