In case anyone is still interested, your machine is a later version of the Meister Klasse 101 sewing machine which was manufactured in Germany starting in 1948. There are several pictures of the Klasse 101 in the NeedleBar Picture Library Archive. The Meister Klasse 101s did not have the light built in behind the

Sewing machine manuals are considered a "part," or an essential piece of equipment to the machine. For those who know the make and model of the sewing machine, it's likely they'll be able to locate a manual. The first step is finding the machine's manufacturer and model number. Most machines have a

My domestic sewing machine wasn't cutting it, but I also wasn't ready to invest in an expensive, brand new industrial sewing machine. Below, I'm linking to a couple of Leatherworker Forum threads on this machine and similar ones. The consensus is that this machine is somewhat limited for sewing thick leather or many layers of leather.
