Clean / Replace Mass Air Flow sensor. Mercedes. Poor idle, Fluctuating RPM, Excess Cranking.

Mercedes MAF Mass Air flow Sensor - YouTube

They're saying the problem is in the Air Mass Sensor, quoting £460 (inc tax and labour) to remove the unit, send for repair and refit or £1200 inc. for a new replacement from Benz. I quizzed them for a bit more detail and was told the problem was causing the engine to run a bit rich but otherwise wasn't doing much else.

Mercedes A Class A140 ECU & Air Mass/Flow Meter change help

The mass air flow sensor (MAF) is used to measure the amount and temperature of air that is entering the engine at any one time. The mass air flow sensor senses the total amount of air passing the sensor and allows the fuel injection system to adjust the fuel mixture to compensate for cold weather and/or high altitude conditions.

Mercedes-Benz W203 MAF (Mass Air Flow) Sensor Replacement ...

The mass air flow sensor (MAF) is used to measure the amount and temperature of air that is entering the engine at any one time. The mass air flow sensor senses the total amount of air passing the sensor and allows the fuel injection system to adjust the fuel mixture to compensate for cold weather and/or high altitude conditions.
