Microwave Engineering Samuel Liao

More than a book this is a sort of personal show of the author. The book is quite useless to gain real knoweldge in the microwave engineering area. The developement of subjects is unsatisfactory because many times Mr Liao shows to you final formulas without saying much of the related derivations. The general impression is that the book tries to show too many things without really explaining anything. For a solid introduction to the microwave engineering area try instead "Microwave Engineering ...
