Mikuni Carburetors. Some of the Mikuni carburetors for motorcycles in the market include: 1) Mikuni HSR 42MM. This carburetor promises to help your engine reach its full potential. The compact design fits like stock and employs a simple bolt-on application. It comes with instructions so you need not worry about being able to bolt it on.

### **Mikuni Carb Identification: How to tell which one you have**

Mikuni VM carbs are their CR carbs, they use a roundslide. here is a manual about them. CR carbs are hot shit because they have a slide that is controlled directly by the throttle input, instead of being controlled by the engine speed. they come in flatslide, roundslide, etc. Keihin aftermarket performance carbs , all of these are "direct slide".
