...

The service engine soon light can cover many issues, from minor to major. Once you have determined that it is the service engine light that is illuminated and not the check engine light, you will have to perform an inspection to determine where the problem is located. In some vehicles it simply means that it is time for an oil change.

Why the Service Engine Soon Light ... - D & D Autoworks Inc

Another possible culprit triggering the "service engine soon" light is misfiring spark plugs. Spark plugs on older vehicles (before 1996) needed to be changed every 40,000 to 50,000 kilometers; on more modern vehicles spark plugs can go to 150,000 km before needing to be changed. Faulty spark plugs can cause your engine to misfire.

the error code. Step 1

How to Reset a Service Engine Soon Light | It Still Runs

This light typically displays as the words "SERVICE DUE" or "SERVICE ENGINE SOON," and will either be red or yellow in color. In some cars, it may even show as "Service X " or "Service Y " (where X and Y represent specific items in need of service). A good example of this would be the Mercedes-Benz service reminders.

Check Engine Light vs. Service Engine Soon Light - Autoscope

The service engine soon light is often mistaken for the check engine light. The check engine light is a light to warn you to a possible issue with your exhaust system or emissions system. The service engine soon light can come on for minor issues like a loose gas cap, or for more major problems such as possible engine failure. Your Service Engine Soon Light Should Not Cause You to Panic

What Does the Service Engine Soon Light Mean on a Nissan ...

The service engine light comes on in your vehicle because the computer has diagnosed that something isn't quite right. When the light comes on, a code is stored as the reason for triggering the light. When you take your car in to get it checked out, the mechanic hooks up a little diagnostic computer to your vehicle's computer.

Service Engine Light: Your Mechanic's Dirty Little Secret

We'd like vehicle owners to understand that by turning off the check engine or service engine soon light, essentially deleting all emissions data from your vehicle's engine control module (ECM), the smog machine will not know your vehicle has had or currently has any emissions faults AND all Emission Monitors will be erased as well.
