A Human History. For more than three centuries slave ships carried millions of people from the coasts of Africa across the Atlantic to the New World. Much is known of the slave trade and the American plantation complex, but little of the ships that made it all possible. In *The Slave Ship*, award-winning historian Marcus Rediker draws on thirty years of research in maritime archives to create an unprecedented history of these vessels and the human drama acted out on their rolling decks.

In the book, Rediker examines four major types of relationships aboard the slave ships: captain and crew, sailor and slave, slave and slave, and merchants against abolitionists. Rediker asserts these relationships played a key role in how life played out aboard the slave ships; many slaves only survived by banding together and finding solace in each other. Although many slaves aboard the ships didn't speak the same language, they found other ways to communicate and share messages. The ...
