Studying Human Behavior Longino Helen

In Studying Human Behavior, Helen E. Longino enters into the complexities of human behavioral research, a domain still dominated by the age-old debate of “nature versus nurture.”

Studying Human Behavior | The Program in Science ...

Rather than supporting one side or another or attempting to replace that dichotomy with a different framework for understanding behavior, Longino focuses on how scientists study it, specifically sexual behavior and aggression, and asks what can be known about human behavior through empirical investigation. She dissects five approaches to the study of behavior—quantitative behavioral genetics, molecular behavior genetics, developmental psychology, neurophysiology and anatomy, and social ...
