Surface Pro - Enterprise Deployment Quick Start Guide

Zero Trust Deployment Guide for devices. The modern enterprise has an incredible diversity of endpoints accessing their data. This creates a massive attack surface, and as a result, endpoints can easily become the weakest link in your Zero Trust security strategy. Whether a device is a personally owned BYOD device or a corporate-owned and fully managed device, we want to have visibility into the endpoints accessing our network, and ensure we're only allowing healthy and compliant devices ...

The Think Deployment Resource Center is a portal to provide content and documentation for enterprise customers who are performing their own operating system deployments of Lenovo products.

Think Deployment Resource Center - Lenovo Support US

Thanks @Hesham Saad, understood, maybe I didn't phrase it very well?. What I was looking for was anything similar to "Deployment Guide" for Azure MFA for instance? By this I mean, a very real and practical guide to a list of the the design decisions + various options, plus guidance on the consequences of those decisions - I'm going to assume that this doesn't exist as yet.
