Global city - Wikipedia

Global city, an urban centre that enjoys significant competitive advantages and that serves as a hub within a globalized economic system. The term has its origins in research on cities carried out during the 1980s, which examined the common characteristics of the world's most important cities.

Global city | Britannica

Sassen aims to - unpack the concept of "the city" (p. xviii) - as a unit of analysis in sociology and economics from a global perspective. The scope of this endeavor is quite staggering and she has to bring an number of different fields under the same conceptual umbrella in order to capture the elusive character of 'the city'.
