Bruce Davidson is an award-winning photographer known for documenting New York City in his book Subway, and for photographing communities where most outsiders weren't welcomed. Read More → Eva Barois De Caevl is an independent curator drawn towards moving images, experimental cinema, and the history of production structures.

The Observers: Photographers Recommend Their Favorite Books

The book that sparked my own interest in astronomy. Written by the legendary British astronomer Patrick Moore, and aimed at total beginners and younger readers. Moore's restrained enthusiasm is from a bygone age, but I'm sure he retains the ability to delight today's budding stargazers.

The Observer's Book Of Astronomy by Patrick Moore

Ancient Egyptian religion. This concept of weighing something in order to judge the fate of the deceased is first seen in ancient Egypt around 2.400 B.C., where people's hearts are weighed on a scale against a feather.. The Weighing of the Heart would take place in Duat (the Underworld) which the dead were judged by Anubis, using a feather, representing Ma'at, the goddess of truth and justice ...

Weighing of souls - Wikipedia
