Earthworm dissection lab Flashcards | Quizlet

Worms do many of the things humans do to survive. They breathe, move around, reproduce, and eat. Worms have the epidermis; wich is like our skin, a layer of nerve tissue, wich acts like our sense of touch. Instead of having just one heart, they have five hearts. These hearts regulate blood flow and produce a pulse, just like ours. They have a dorsal and a ventral vessel branching off the ...

Earthworm Dissection Lab Answers | SchoolWorkHelper

This earthworm lab is a revised version of the observation lab that I have used for years. I wanted to make the lab more open-ended and include terminology within the lab instead of expecting them to know it from their notes or textbooks. Taxonomy chapters on annelids and other invertebrates are being phased out, and I would rather students ...
