### Vw Golf Engine Air Con

Lack of Refrigerant- Your VW Golf air conditioner will not work if the refrigerant has disappeared due to a leak. In fact, most won't even cycle on without the right amount of refrigerant pressure. This is far and away the most common reason that your VW Golf air conditioner is not functioning. It can be tempting to just get more refrigerant gas and get back on the road, but unless you find where the leak is coming from it'll eventually happen again.
