A positive learning environment not only consists of the physical setting, but it also encompasses how the child feels or responds to the setting. There are a number of ways families and educators can create an environment for children that is conducive to learning.

How to Create a Positive Learning Environment for Children ...

In an academic setting, play can also help children learn and grow. Teacher-initiated play is a close cousin to inquiry based learning. At Whitby, our early child educators ask children questions about the rules and process that govern the play, and then encourage children to make connections to the wider world through their own body of knowledge.

How Do Children Learn Through Play? - Whitby School

Theories of mind As they mature, children develop theories of what it means to learn and understand that profoundly influence how they situate themselves in settings that demand effortful and intentional learning (Bereiter and Scardamalia, 1989). Children entertain various theories of mind and intelligence (Dweck and Legget, 1988).

Students create index cards with a large green marker circle on one side and red on the other. If they are following along and understanding the lesson, the green side of their card is upright and visible to you. When they do not understand something and need clarification, they flip the card to show you the red side.
