Analyze: A Weather Watch Activity | Scholastic

Weather reports & Map analysis Surface weather charts summarize weather conditions that can affect your life. Where is it rain-ing, snowing, windy, hot or humid? More than just plots of raw weather reports, you can analyze maps to highlight key features including airmasses, cen-ters of low- and high-pressure, and fronts (Fig. 9.1).

PrMet Ch09 Weather Reports & Map Analysis

Weather maps are generated based on analysis of station model data from several locations. Isotherms: Isotherms connect points of equal temperature. They tend to run east to west across the

country. This is because latitude is the largest factor in determining a locations temperature, and latitudes run east to west.
