The producer holds a life license and claims a funeral exemption (sells less than \$15,000 of insurance). WebCE ® provides information as a courtesy to individuals who are subject to continuing education (CE) as insurance producers, agents, adjusters and/or brokers.

California Insurance Course Catalog | WebCE

The difference between producers and consumers is that consumers must eat other organisms (living or dead) to obtain at least some of the molecules for life while producers can make all the necessary molecules they need to live from raw materials such as water, carbon dioxide, soil minerals, and sunlight – they do not eat other organisms to ...

Producers and Consumers - Science Learning Center

First Time License / New License / Reinstatement / Add Line of Authority: A first-time applicant is an applicant for an insurance license that has never held a license before in the state and must meet that state's license requirements. Note: Several states also require those who failed to renew within the renewal period to submit a new license application.

State Requirements | NIPR

Balance of Nature is the interdependency between plants and animals form the strands of the Web of Life with a tendency toward balance of producer-consumer, predator-prey relationships. Drought years reduce plant growth, which then reduces rabbit and deer populations, which reduce bobcat, mountain lion and coyote populations.
